

I am writing to express my outrage at the decision of Sinclair Broadcasting to force its member stations to replace regular programming with partisan political garbage. It seems to me this decision must be illegal as a campaign contribution issue, but I also think that this is illegal in the sense that they are portraying this as news (and not offer up the fact that its is commentary and opinion). Please look into this matter and make sure that this inkind contribution to the Republicans is also given to the Democrats as well. To have televisions stations with the power to fix or buy an election seems a little bit un-american to me. I was under the impression that as a broadcasting station you had to have the public interest in mind at all times. This would be fine if it were a cable news channel, but they own multiple stations and the influence they could have if not kept in check is ridiculous. By the way, this is far more offensive than Janet Jacksons Breast exposure, this issue is the fabric of democracy and not just a little bit of indeceny (or freedom of expression as it were).

Thank you for your time and attention to this matter
